- 3. Altogether one hundred and twenty-five electric lamps will be installed as shown in the above statements, of which only one at the Grand Trunk Road in Ward No. 11 will be of 50 candle power, the rest being of 25 candle power each. The Municipal Commissioners have decided to enter into an agreement with the Calcutta Electric Supply Corporation, Limited, for the installation of these lamps and for their maintenance at the annual rates of Rs. 25-9 and Rs. 16-11 for each lamp of 50 and 25 candle power respectively, or at a total cost of Rs. 2,095 annually. Besides, if necessary, the Commissioners may have to bear a portion of the initial cost for running the electric mains in certain streets.
- 4. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing an annual lighting rate at 11 per cent. on the annual value of holdings situated on either side of the roads shown in the above statements. The income to be derived from the lighting tax from the aforesaid area is estimated to be Rs. 2,550 a year.

  - (e) In the case of school-masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.
  - (f) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.
  - (g) A statement by the candidate giving the following facts:—

    - (i) Residence.(ii) Father's name.
    - (iii) Second language besides English.
    - (iv) Vernacular language for composition.
    - (v) Vernacular language from which translation is to be made into English in the first English paper.
    - (vi) Which of the following subjects he has taken up :-
      - (1) Additional mathematics.
      - (2) Additional paper in the classical language.(3) History.

      - (4) Geography.
      - (5) Elementary mechanics.
    - (vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

N.B.—A student who failed to pass, or appear at the annual examination for promotion to class X at the end of the session 1924, and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

- 5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.
- 6. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction . will be moved to sanction the expenditure.
- 7. The head masters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.
- 8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

'9. Private students must understand that the Test Examination of any school other

than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1926, the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

### University Matriculation Examination, 1926.

#### Private Students.

1. Private students are those who have not attended any recognized or unrecognized High English School for at least one year previous to the examination. The term "private students" includes teachers of schools.

2. Private students must appear at the Test Examination to be held on Monday, the 7th December 1925, and the following days at any of the Government High schools in

the Burdwan Division.

Each private student will have to pay a fee of Rs. 6, which should be remitted to the Inspector of Schools, Burdwan Division, Chinsura, along with his application for admission to the Test Examination by the 2nd November 1925, after which date a fine of Rs. 2 will have to be paid for each week's delay. Under no circumstances will the admission fee be refunded. No private student will be admitted to the Test Examination unless he is accompanied, for the purpose of identification, by some person known in the office of the Inspector of Schools, Burdwan Division, or to the staff of the Zilla School, where he will appear. Those who are not bona fide residents of the Burdwan Division will not be admitted to the Test Examination.

3. Applications must be submitted through the headmaster of the school in which the applicant last read. The headmaster, in forwarding the application to this office, should note whether he recommends the application or not. If he does not, his reasons should be stated. The application of no candidate is to be forwarded who did not leave school from the 1st class, or who had not been declared fit for promotion to that class. The information to be given and the documents to be appended (in original) are the

following:

(a) The name of the school in which the candidate last studied.

(b) The transfer certificate (in original) granted to the candidate by the headmaster of the school in which he last read; or

(c) In the case of a candidate who previously appeared at the Entrance Examination, the Registrar's receipt (in original) for the fee paid.
(d) The age of the candidate is not required in cases (b) and (c). No candidate who has not completed the age of fifteen years on the first day of the Matriculation Examination is eligible.

(e) In the case of school-masters, a certificate of good conduct from the secretary

or proprietor of the school in which the candidate is serving.

- (f) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination held in March 1925. Detailed information is needed under this head. The person granting the certificate should state his social or professional position.
- (g) The names of subjects in which the candidate wishes to be examined.
- 4. The fee for the Matriculation Examination has NOT to be sent to this office. It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

The address of each private student should be supplied to this office.

The Matriculation Examination for 1926 will be held on the 1st March 1926 and the following days or any other subsequent dates declared by the University.

### INTERMEDIATE AND B. A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and bona fide teachers of English Schools, who have served as such for the full period of three academical years preceding the examination, will be admitted to the abovementioned examinations.

Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the secretaries of their respective schools. Candidates for the B. A. Examination must forward with their applications their F. A. certificates, and those for the Intermediate Examination their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in addition.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B.A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration

of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 9th January 1926, together with other papers, as mentioned in rules 2 and 3, after which no application will be received.

The dates of Intermediate and B.A. Examinations of 1926 may be obtained from the

Registrar, Calcutta University.

#### Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent, of the premis paid, should the nominees prodecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

# NOTIFICATION.

Simla, the 13th August 1925.

No. G. (E(ec.)-1.—The following draft of further amendments to the Indian Electricity Rules, 1922, which it is proposed to make in exercise of the powers conferred by section 37 of the Indian Electricity Act, 1910 (1X of 1910), is published, as required by section 38 of the said Act, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 25th November 1925.

Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council:—

# Draft amendments.

1. After rule 40 of the said Rules the following heading and rule shall be inserted, namely:—

# " Precautions to be adopted by consumers.

- 40-A.—(1) No electrical installation work, including additions, repairs and adjustments to existing installations, upon the premises of or on behalf of any consumer for the purposes of a supply of energy to such consumer, shall be carried out except by or under the direct supervision of a person holding a certificate of competency issued by the Local Government in accordance with rules made by the Local Government for the grant and cancellation of such certificates.
  - (2) This rule shall come into force in any province or part thereof on such date as

the Local Government may, by notification in the local official Gazette, appoint."

2. After rule 106 the following rule shall be inserted, namely:—

"106-A.—Consumers shall be responsible for the observance of rule 40-A, and for every breach of that rule the consumer upon whose premises or on whose behalf the installation work was carried out shall be punishable with fine which may extend to three hundred rupees and, in the case of a continuing breach, with a further fine which

may extend to fifty rupees for every day after the first during which he is convicted of having persisted in the breach."

- 3. Altogether one hundred and twenty-five electric lamps will be installed as shown in the above statements, of which only one at the Grand Trank Road in Ward No. II will be of 50 candle-power, the rest being of 25 candle-power each. The Municipal Commissioners have decided to enter into an agreement with the Calcutta Electric Supply Corporation, Limited, for the installation of these lamps and for their maintenance at the annual rates of Rs. 25-9 and Rs. 16-11 for each lamp of 50 and 25 candle-power respectively, or at a total cost of Rs. 2,095 annually. Besides, if necessary, the Commissioners may have to bear a portion of the initial cost for running the electric mains in certain streets.
- 4. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing an annual lighting rate at 1½ per cent. on the annual value of holdings situated on either side of the roads shown in the above statements. The income to be derived from the lighting tax from the aforesaid area is estimated to be Rs. 2,550 a year.

# Draft notification.

In exercise of the powers conferred by section 11 of the Bengal Mining Settlements Act, 1912 (Bengal Act II of 1912), the Governor in Council is pleased to make the following rules in Part V of the rules made under the said section, which were published under notification No. 14201'.H., dated the 10th July 1924, viz. :-

# Rules regarding assessment of mine-owners, etc., under the Bengal Mining Settlements Act, 1912.

- 60A. (1) The year of assessment is the financial year beginning in April and ending in March.
- (2) The year referring to the output of a mine is the calendar year beginning in January and ending in December.

The owner of a mine shall be assessed in respect thereof-

(i) in the first year of assessment on the output of the year immediately preceding the year of assessment,

(ii) in the second year of assessment on the average output of the two years last preceding the year of assessment,

(iii) thereafter on the average output of the three years last preceding the year of assessment.

Explanation.—The aforesaid periods of years shall, for the purpose of the calculation of the average output during any such period, include any year in which the mine yielded

no profit.

- No assessment shall be made in respect of a mine which has been permanently 60C. closed during the whole of the calendar year preceding the year of assessment, provided that the notice prescribed in rule 72A of the rules made under section 11 of the Bengal Mining Settlements Act, 1912 (Bengal Act II of 1912), and published with notification No. 4100, dated the 19th August 1913, has been received. For the purpose of these rules any such mine which is subsequently re-opened shall be deemed to be a new mine and assessed under rule 60B (i).
  - 60 D. A receiver of royalty, rent or fine in respect of mines shall be assessed-
    - (i) in the first year of assessment on the road cess payable for the year immediately preceding the year of assessment,

(ii) in the second year of assessment on the average road cess payable for the preceding two years, and

(iii) thereafter on the average road cess payable for the three years last preceding the year of assessment.

# Muhammadan Educational Fund Settlement Scholarships tenable 'at , the Dacoa Intermediate College, 1925.

THE Muhammadan officers of the Settlement Department under the late Government of Eastern Bengal and Assam raised a fund named "The Muhammadan Educational Fund" out of which it is proposed to award on the results of the last Matriculation Examination two Junior Scholarships, each of the value of Rs. 90 only per annum and tenable for two years, to selected Muhammadan students who do not hold any other kind of scholarship. These scholarships are tenable only in Dacca Intermediate College, and the recipients must be residential students of the institution. In making the award the pecuniary circumstances of the candidates will be taken into consideration. Intending candidates must state in their applications whether they are bona fide hatives of Dacca, Rajshahi and Chittagong Divisions or of Assam and have studied in a school situated in those areas and recognised by the Education Department.

Applications should be submitted to the Principal, Dacca Intermediate College, through the heads of the institutions from which the candidates have passed the Matriculation

Examination at once.

- 3rd.—If the amount of purchase-money exceeds Bs. 100, one-fourth of the amount must be immediately deposited.

  If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th.—The tenants' rights of the plots of land will be sold (or subject to the payment of annual rents of Re. 1-4 per bighs to the proprietors which will be subject to revision at the next general settlement of the temporarily-settled estates of the district) to the highest bidders.
- 5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular conveyance will then be granted to the purchaser.
- 6th.—The plots may be sold either in one lot or in different lots as may be decided by the Collector at the time of

#### Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from tearning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill further to amend the Legal Practitioners Act, 1879.

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879, for the purposes hereinafter XVIII of appearing; It is hereby enacted as follows:-

Short title.

1. This Act may be called the Legal Practitioners (Amendment) Act, 192

Amendment of rection 3, Act XVIII of 1879.

- For the definition of "tout" in section 3 of the Legal Practitioners Act, 1879 (heremafter referred to as XVIII of the said Act), the following definition shall be substituted, 1879. namely :-
  - "'tout' means a person-
  - (a) who procures the employment in any legal business of any legal practitioner, in consideration of any remuneration moving from such practitioner or from any person interested in such business; or who proposes to procure the employment in any legal business of any legal practitioner to such legal practitioner or to any person interested in such business, in consideration of any remuneration moving from either of them; or
  - (b) who habitually frequents the precincts of Civil or Criminal Courts or revenue-offices or railway stations, landing stages, lodging places, or other places of public resort for the purposes of such procurement."

Amendment of section 86, Act XVIII of 1879.

- 3. In section 36 of the said Act,—
  - (a) in sub-section (1) after the word "satisfaction" the words "or to the satisfaction of any subordinate Court as provided in sub-section (2A," shall be inserted;
  - (b) to sub-section (1) the following Explanation shall be added, namely :--
- " Explanation .- Evidence of general repute includes a resolution passed by a majority of hot less than two-thirds of the members of an association of persons entitled to

practise as legal practitioners in any Court or tevenueoffice, declaring that any person is or is not a tout ";

The control of the secretary and the control of the

- (c) after sub-section (2) the following sub-section shall be inserted, namely:—
- "(2A) A Court, Judge, Magistrate or officer empowered under sub-section (1) to frame and publish a list of touts may send to any Court subordinate to such authority a list of persons alleged or suspected to be touts; the subordinate Court shall thereupon hold an inquiry into the conduct of the persons mentioned in such list, and shall report whether any such person has been proved to its satisfaction to be a tout, to the authority by which the list was sent; and that authority, where any such person is proved to the satisfaction of the subordinate Court to be a tout, shall include the name of such person in the list of touts framed and published by that authority."
- (d) after sub-section (5) the following sub-section shall be inserted, namely:—
- "(6) Any person whose name is included in any such list who acts as a tout shall be punished with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both."

#### STATEMENT OF OBJECTS AND REASONS.

In their report the Bar Committee made the following observations in regard to touting :-

"We feel that our report would not be complete without some reference to an evil which was brought prominently to our notice in the course of our enquiry. The evidence which we have received leaves no doubt that touting of various kinds prevails in most parts of India. The law with reference to touting was strengthened in 1896, but has proved entirely ineffective. The plain fact is that unless the legal profession assists the courts to suppress touts little can be done by way of legislation."

The Civil Justice Committee also referred to the fact that the employment of touts

is the evident and immediate cause of many false claims and defences and of much waste

of time in courts.

. The question of amending the law so as to permit of the effective suppression of touting was considered at length by the Government of India in consultation with the local Governments and with judicial authorities immediately before the war, and it was only because of the war that legislation was not then undertaken. The Government of India consider that in view of the observations of the two Committees referred to above, in regard to the inefficiency of the present law and the evils attendant upon touting, legislation on the matter should no longer be delayed. The Civil Justice Committee have made definite recommendations for the amendment of the law and these have been considered with the conclusions which had been arrived at by the Government of India in 1913 to 1915. The result of that consideration is embodied in the present Bill. Briefly it is proposed to amend the law in the four following respects:-

- (i) to extend the definition of a tout in section 3 of the Legal Practitioners Act, 1879, so as to include firstly, persons whose remuneration comes from any person interested in any legal business as well as persons whose remuneration comes from the legal practitioner himself and secondly, persons who habitually frequent places of public resort for the purpose of procuring the employment in any legal business of any legal practitioner;
- (ii) to permit the receipt of a resolution passed by a majority of not less than twothirds of the members of a Bar Association as evidence of general repute;
- (iii) to enable the courts and authorities who may now frame and publish lists of touts to cause enquiries to be held by a subordinate court, which enquiries, if the subordinate court concludes that the persons in question have been proved to be touts, will lead to their inclusion in the list of touts framed and published under section 36 of the Legal Practitioners Act; and
- (iv) to penalize any person whose name has been included in a list of touts who continues to act as a tout.

In regard to the last point, it will be observed that under section 36 of the Legal Practitioners Act the authorities are only empowered to exclude from the precincts of the court persons named in the list of touts. With the extension of the definition of a tout to persons who frequent places of public resort other than civil or criminal courts or revenue offices penal provision is required as was in fact recommended by the Civil Justice Committee.

(2) The Court shall in such trial follow, as far as may be, the procedure for the trial of warrant cases by Magistrates prescribed by Chapter XXI of the Code of Criminal Procedure, 1898, and nothing in Chapter XXIII of the V of 1898 said Code relating to trials before High Courts and Courts of Session shall be applicable to such trial"

#### STATEMENT OF OPJECTS AND REASONS.

The inadequacy of the provisions of the Provincial Insolvency Act to meet the requirements of the town of Karachi has been brought to the notice of the Government of India from time to time since 1909 when the Presidency-towns Insolvency Act was passed. The question was, for example, raised in connection with the revision of the Provincial Insolvency Act in 1920. Hitherto the Government of India have adopted the view that the machinery of the Presidency-towns Insolvency Act, 1909, is not suitable for a Court of less status than a Chief Court, and further that the changes introduced in the Provincial Insolvency Law by Act V of 1920 were probably sufficiently adequate to preclude the necessity of the extension of the Presidency-towns Insolvency Act to Karachi. The Civil Justice Committee have considered the matter further and have strongly recommended that the Presidency-towns Insolvency Act should be applied to Karachi with as little delay as possible. The question of raising the status of the Court of the Judicial Commissioner of Sind to a Chief Court is also under the consideration of the Government of Bombay. The present Bill proposes to give effect to this recommendation and also to two other recommendations made by the Civil Justice Committee namely:—

(i) that provisions on the lines of sub-section (5) of section 70 of the Provincial Insolvency Act, 1920, should be inserted in section 104 of the Presidency-towns Insolvency Act, 1909, so as to enable the Insolvency Court instead of proceeding itself to try the case to make a complaint to the nearest first class

Magistrate having jatisdiction; and

(11) that the existing procedure in section 104 of the Presidency-towns Insolvency

Act and in section 70 of the Provincial Insolvency Act by which before a Court proceeds to try an insolvent or debtor for certain offences against the insolvency law, it is required to serve a notice or summons on the insolvent or debtor to show cause why a charge or charges should not be framed against him should be modified on the lines of the English Bankruptcy Law under which an order for prosecution may be obtained from the Court without consulting the bankrupt on the subject,

Advantage has also been taken of this opportunity to make certain formal amendments to the Presidency-towns Insolvency Act necessitated by the constitution of a High Court of Judicature at Rangoon.

- 3. Altogether one hundred and twenty-five electric lamps will be installed as shown in the above settlements, of which only one at the Grand Trunk Road in Ward No. II will be of 50 candle-power, the rest being of 25 candle-power each. The Municipal Commissioners have decided to enter into an agreement with the Calcutta Electric Supply Corporation, Limited, for the installation of these lamps and for their maintenance at the annual rates of Rs. 25-9 and Rs. i6-11 for each lamp of 50 and 25 candle-power respectively, or at a total cost of Rs. 2093 annually. Besides, if necessary, the Commissioners may have to bear a portion of the initial cost for running the electric mains in certain streets.
- 4. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing an annual lighting rate at 1½ per cent. on the annual value of holdings situated on either side of the roads shown in the above statements. The income to be derived from the lighting tax from the aforesaid area is estimated to be Rs. 2,550 a year.
  - 5. This cancels notification No. 2747M., dated the 27th August 1925.

No. 2929M.—The 15th September 1925.—In pursuance of section 49, sub-section (1) of the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), it is hereby notified for general information that in exercise of the powers conferred by section 48 of the Act the Governor in Council is pleased to sanction the Street Scheme known as Scheme No. XXV in Ward No. 10 of the Calcutta Municipality which has been submitted to him by the Board of Trustees for the Improvement of Calcutta, under section 47 of the said Act.

2. Description and particulars of the scheme :-

In addition to the details required on the reverse, clear information should be given below under the following heads:-

- (a) If the ordinary surplus is insufficient to meet the charges of the proposed loan the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.
  - (a) A sum of Rs. 10,488 in average is provided for in the budget estimate of each year for roads only. If the roads are metalled with stone and thoroughly repaired they will be in good order for at least 10 to 12 years. Part of the provision will be safely utilised towards payment of this loan; the remainder of the road allotment would be utilised for patch repairs and maintenance of the unmetalled roads. Moreover, owing to re-assessment there has been a general increase of municipal revenue of Rs. 8,000 over the demand of 1924-25, and thus the loan will be easily paid up.

#### FIRSHOE BEPARTMENT.

#### RESOLUTION.

#### Simla, the 28th August 1925.

No. F-21-11-C.S.R.-24.—The Secretary of State in Council has been pleased to sanction the grant of the concessions mentioned below to civil officers who rendered

military service in the Great War :-

- (1) If a civil officer who served with the Forces during the Great War, and who was granted sick leave during that service (other than the 3 months absence on full pay allowed to officers wounded or invalided), has reason to think that the amount of civil leave earned by him in respect of his military service was less than the amount debited in his leave account in respect of the same service, his leave account will, on his making application, be examined and, if such should be found to be the case, the excess debit will be cancelled.
- (2) Sick leave taken by an officer during military service will count for pension up to a maximum of two years (as in the case of special disability leave) irrespective of whether he was eventually invalided from military service or not. If he was invalided from military service, any such period of sick leave allowed to count for pension should be deducted from any period of disability leave that might otherwise be admissible to him on his release from military service.
- 2. Pensioners who retired before the date of this Resolution, who have reason to think that their pension will be increased by the concession now sanctioned, should make an application for re-calculation of their pensions to the authority which sanctioned their pension. Any increase of pension which may be admissible as a result of the concession will have effect from the 5th July 1925.

ORLERED that the resolution be published in the Gazette of India (Part I).

## PART III.

Acts of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

## NOTIFICATION.

No. 424T.L., dated Darjeeling, the 14th September, 1925.—In pursuance of the provisions of sub-section (3) of section 81 of the Government of India Act, the following Act of the Local Legislature of Bengal having been assented to by the Governor General on the 7th September, 1925, is hereby published for general information:—

## BENGAL ACT NO. III of 1925.

## THE BENGAL HIGHWAYS ACT, 1925.

An Act to provide for the better maintenance and control of Government roads in Bengal.

Whereas it is expedient to provide for the regulation and safety of traffic on Government roads in Bengal, for the prevention of obstruction and encroachments, and of nuisances on or near such roads, for the preservation of such roads, and for the temporary closing of such roads for repairs or other works, or for public purposes;

And whereas the previous sanction of the Governor General under sub-section (3) of section 80A of the Government of India Act has been obtained to the passing of this Act;

It is hereby enacted as follows:—

#### Short title. extent and commencement.

- (1) This Act may be called the Bengal Highways Act, 1925.
  - (2) It shall extend to the whole of Bengal.
- (3) It shall come into force on such date as the Local Government may, by notification in the Calcutta Gazette, direct.

Definition.

- 2. In this Act, unless there is anything repugnant in the subject or context,—
  - "Government road" means a road vested in, or under the control and administration of, the Public Works Department of the Local Government, and includes-
    - (a) the slope, berm, borrow-rits and side-drains of any such road;
    - (b) all lands and embankments vested in, or under the control and administration of, the said Public Department, , and attached to a Government road;
    - (c) all bridges, culverts or causeways built on or across any Government road; and
    - (d) all fences and posts on any Government road or on any land

## (Sections 3, 4.)

attached to a Government road, and all road-side trees on such land:

Provided that nothing in this definition shall affect the provisions of the Calcutta
Municipal Act, 1923, or of any rule or Bon. Act III by-law made thereunder, in so far as they empower the Corporation of Calcutta to take action in respect of the Government roads now under the control of the Corporation.

Temperary closing of Government road.

The Local Government or any officer empowered by the Local Government in this behalf may, by public notice, displayed in a conspicuous portion of the road, declare any Government road or part thereof to be closed temporarily for the purpose of repairing such road, or for the purpose of constructing any sewer, drain, culvert or bridge, or for any other similar public purpose:

Provided that the Local Government or any officer empowered by the Local Government in this behalf shall, before declaring any such road or part thereof to be closed, be bound, where possible, to provide other reasonably sufficient means of access to holdings adjacent to such road or part, if no such means of access already exist:

Provided also that where there is a stretch of road over half a mile in length, the road or part thereof closed at any one time shall not exceed half a mile in length, and that, where possible, in such closed parts, an alternative route shall be provided.

Power to make rules.

- (1) The Local Government may make rules—
  - (i) for the regulation and safety of traffic on Government roads;
- (ii) for the prevention of obstruction and encroachments and of nuisances on or near such roads;
- : (iii) for the preservation of such roads; and
  - (iv) for the temporary closing of such roads for repairs or other works, or for the purposes specifically set forth in section 3.
- (2) All rules made under this section shall be published in the Calcutta Gazette and, on such publication, shall have the same effect as if enacted in this
- (3) The power to make rules under this section is subject to the condition of the rules being made after previous publication and to the following further conditions, namely:—
  - (a) a draft of the rules shall be published by notification in the Calcutta Gazette and in local newspapers, and

## (Section 5.)

(b) such draft shall not be further proceeded with until after the expiration of a period of one month from such publication.

Penalties.

5. In making any rule under this Act, the Local Government may direct that a breach thereof shall be punishable with a fine which may extend to ten rupees, and when the breach is a continuing one, with a further fine not exceeding one rupee for every day after the date of the first conviction during which the offender is proved to have persisted in the offence.

J. BARTLEY,
Secretary to the Benyal Legislative Council.

## DISTRICT REPORTS ON WEATHER AND CROPS.

#### For the week ending on the 25th August 1925.

Summary.—During the week the rainfall was generally light. More rain is needed for the growth of crops on highland and for the transplantation of winter paddy seedlings which is proceeding slowly. Harvesting of jute continues in full swing, and that of autumn paddy is well advanced. The standing crops are generally doing well except on highland where the condition is not satisfactory. The average price of common rice for the province has slightly fallen as compared with that of the previous week.

## CORPORATION OF CALCUTTA.

#### NOTICE.

NOTICE is hereby given that the Corporation of Calcutta, under powers vested in them under section 302 of the Calcutta Municipal Act of 1923, read with section 308 of the said Act, have decided to reduce the width of the projected public street between Kalighat Road and Harish Mukherjee Road opposite Rani Sankari Lane, from 40 feet originally sanctioned to 25 feet as shown in the plan.

J. C. MUKERJEA,
Acting Chief Executive Officer.

CENTRAL MUNICIPAL OFFICE, the 26th August 1925.

#### CALCUTTA IMPROVEMENT TRUST.

It is hereby notified that the Government of India in letter No. 84L.S.-G., dated the 4th August 1925, have accorded sanction, under section 89 of Bengal Act V of 1911, to the Calcutta Improvement Trust raising a debenture loan of Rs. 50,00,000 bearing interest at 6 per cent. and repayable in thirty years.

A. MARR, Chairman.

5, CLIVE STREET, CALCUTTA, the 28th August 1925.

## RESOLUTION—No 413 T.—P.H.

READ-

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1923.

READ ALSO-

The annual statistical returns and short notes on vaccination in Bengal for the year 1923-24.

1. Public Health (Statistical, Epidemiological and General Public Health Administration)—

**Population.**—For the purposes of this review, the total population of Bengal, excluding the Chittagong Hill Tracts, is taken as 46,522,293 (1921 census).

2. Birth-rate and death-rate.—In 1923 the number of recorded deaths in Bengal was 1,185,791 against 1,393,411 births. The provincial birth-rate in the year under review was 29.9 per mille as compared with the quinquennial average of 28.7. The North-West Frontier Province, Assam and Burma returned lower birth-rates than Bengal.

The Bengal death-rate was 25.5 per mille. Six provinces returned lower death-rates than Bengal. The low mortality is, as the Director of Public Health remarks, undoubtedly attributable mainly to the good harvests of the two seasons 1921-22 and 1922-23, but the percentage is also influenced by the relatively few births that have occurred since the year 1918. The Director of Public Health points out that it is the rate of natural increase in births which affords the best evidence of country's health. Judged by this standard

Bengal stands ninth among the ten provinces in India.

It is satisfactory to note that in rural areas the reporting of vital occurrences by the village chaukidar has greatly improved, and as the influence of the health departments under district boards increases, a gradual reduction in the proportion of omissions in the records may confidently be expected. But the Director of Public Health points out that all attempts to bring about an improvement in the records of towns have up to the present failed, and excluding Calcutta and a few other places in which registration of vital occurrences is exceptionally good, the recording of births and deaths in municipal areas has been increasingly defective. He is of opinion that no improvement can be expected until the Registration of Births and Death's Act is enforced in municipalities. The Governor in Council agrees with this view and invites municipalities to give their most serious consideration to this important matter.

As regards birth registration in towns the Director of Public Health remarks as follows:—

In view of the importance of the question, it is to be hoped that one effect of the Baby Week movement will be to direct attention to the need for improving the registration of births in municipal areas generally. Perhaps the efforts of educated women, both Indian and European, may be able to do more in this direction than other attempts have yet been able to accomplish.

infant mortality.—In 1923, 253,694 infants died under the age of one year, as against 239,451 during the preceding year, the total mortality showing a net increase of 5 9 per cent. Comparing the age mortality rates of the year 1923 with the mean rates for the previous ten years, the year under review is however a particularly healthy year.

Deaths from child birth were reported to be 1,185 in 1923 as against 2,567 in 1922. The Director of Public Health is, however, of opinion that very little reliance can be placed upon these figures. In this connection the Director of Public Health remarks:—

The obviously incomplete nature of the returns that are at present being received in respect to deaths from child birth points to the need for directing more attention to maternal and infant welfare, and it is to be hoped that the inauguration of a Baby Week throughout the province will have the effect of arousing public interest in this important question.

Hitherto the efforts of Government to establish classes for the training of the indigenous dai have not been very successful, but local bodies are beginning to show more interest in this scheme.

It is gratifying to note that some district boards and municipalities have already started classes for the training of dais. The Governor in Council hopes that this movement will gain a firm footing and result in bringing immense blessings both to the Indian mothers and their babies.

Cholera.—There were 41,483 deaths from cholera in 1923 as against 51,712 in 1922, the mortality rate in these two years from this disease being '9 and 1'1 per mille, respectively. The Director of Public Health remarks that—

Cholera was specially prevalent during the periods 1891 to 1897 and 1905 to 1908, when in both cases the rainfall trend was down, and that on the contrary the disease declined very markedly when the rainfall trend was elevated.

Many district boards have taken effective measures to cope with cholera epidemics by employing additional temporary staff, and the Governor in Council appreciates the admirable work which such voluntary agencies as the Bengal Health Association and the Cholera Brigade of the Central Anti-malaria Co-operative Society have done in connection with cholera prevention.

Small-pox.—In 1923 the mortality from small-pox was 4.236 as against 36,190 in 1920, 8,257 in 1921 and 7,864 in 1922 and the death-rate '1 per mille lower than it has been for the past 23 years. In 1923 nearly 62 per cent. of the small-pox deaths occurred in the four districts of Mymensingh, Dacca, Jalpaiguri and Chittagong. The average figures of mortality of the previous ten years show that nearly two-thirds of the small-pox deaths in Bengal are usually confined to Calcutta and the following eight districts, viz., Mymensingh, 24-Parganas, Midnapore, Dinajpur, Dacca, Rangpur. Pabna and Howrah. The Director of Public Health has urged that the attention of the local authorities of the city of Calcutta and these eight districts should be drawn to the necessity for improving the condition of their population in respect to vaccination with a view to protecting not only themselves but the whole population of India. Small-pox tends to recur every five years or so in epidemic form. In this connection the Director of Public Health remarks as follows:—

While it is a matter of very great satisfaction to be able to report an exceedingly low incidence of small-pox during the year under report, it is impossible with the information at present available to state with any certainty whether this low incidence is to

be interpreted as evidence of a definite decline in small-pox prevalence or whether it is the prelude to a specially severe recrudescence on the return of the usual periodic epidemic.

The Khulna District Board is to be congratulated on its very satisfactory small-pox statistics; Khulna vaccinators are rejuted to be the best operators in the province, while the public health of this district is particularly good.

The total number of vaccinations reported in the Presidency in 1923-24 was 2,057,724 against 2,006,140 during 1922-23. These figures represent an increase of 64,191 in primary vaccinations, and a decrease of 12,607 in re-

vaccinations.

Out of 1,355,980 infants requiring vaccination, only 278,286 or 2052 per mille were reported to have been successfully vaccinated in the rural areas, as compared with 290,172 or 290'4 per mille of 998,829 infants in the previous year, the proportion of successful vaccination in the case of children under one year of age being 251'2 per mille as against 268'1 per mille in the year 1922-23. The protection afforded was obviously most inadequate. The chief cause of the decline in the number of successful vaccination of infants was the fact that people are generally averse from having their children vaccinated until they are several years old.

An additional grant of Rs. 25,000 was provided in the budget for 1924-25

for the suppression of outbreaks of small-pox epidemics.

Fever.—The mortality in 1923 was 909,795, giving a ratio of 19.5 per mille against the quinquennial average of 24.4. As usual deaths from fever represented about 75 per cent. of the total mortality. Though the mortality from malaria decreased from 540,463 in 1922 to 539,899 in 1923, deaths from enteric, relapsing fever, measles, kala-azar and other fevers increased, the increase being greatest under kala-azar. In respect of fever mortality, there was great improvement in the Presidency and Burdwan Divisions in comparison with other divisions where changes were small. In this connection the Director of Public Health remarks as follows:—

This increase of malaria in Eastern Bengal districts appears to be associated with certain changes that have occurred in these areas in recent years. There has been a great increase of the water-hyacinth, there been a considerable multiplication of village roads, and in certain areas, notably Mymensingh, there has been considerable railway extension. The increase of water-hyacinth is an indication of a greatly lessened flow of water in the bils and water courses and over the surface of the country. This is exactly what might be anticipated as a result of the multiplication of village roads which in deltaic areas are usually like the form of embanked footpaths, raised considerably above the surface of the country. In existing circumstances, the multiplication of village roads in Eastern Bengal districts is likely to be followed by certain consequences of which an extension of water-hyacinth is one and an increase of malaria another. It is said that people can only learn by their own personal experience and rarely gain wisdom from the experience of others. If this is so the people of Eastern Bengal cannot be expected to appreciate the immense risks they incur by interference with the flow of flood water across the surface of the country.

The results obtained from experiments carried on in the colliery area (Singaran-Toposi) and at Meenglas in the Duars with a view to reducing malaria proved successful. The Banka Valley scheme continued to give good results and effected a reduction of the spleen index. A "flood and flush" scheme was carried out at Jangipur, and the results so far obtained go to show that the flushing of malarious areas not only improves the general health but warrants the assumption that flood irrigation is one of the best methods yet devised of dealing with malaria in deltaic areas.

Kala-azar.—The number of reported deaths from kala-azar was 4,565 in 1923 against 1,531 in 1922 and 1,552 in 1921. Kala-azar cases treated at hospitals, dispensaries and special centres were 51,740 in 1923 against 7,689 in 1921 and 13,317 in 1922. It is satisfactory to note that district boards started 125 special centres for the treatment of kala-azar, and that in addition to these centres the Central Co-operative Anti-malaria Society and the Bengal Health Association opened numerous centres where gratuitous treatment is afforded to kala-azar patients. In 1924-25, Government sanctioned the payment of Rs. 30,000 to district boards and of Rs. 5,000 each to the Bengal

Central Anti-Malaria Co-operative Society and to the Rengal Health Association for anti-kala-azar work. Admirable work has been done at the special centres to which a very large number of kala-azar patients resort. The Governor in Council is convinced that efficient medical relief can be provided at a comparatively small cost by assisting local bodies and voluntary agency with small grants from provincial revenues.

Sanitary Engineering.—Sixteen water-supply and sewerage and drainage projects were prepared and three detailed projects of municipal water-supply drawn up by the Chief Engineer, Public Health Department, in 1923. Fifteen water-supply, drainage and sewerage projects were under construction in 1923. Two water-supply projects were completed, one sewerage and one water-supply scheme was abandoned during the year under review. The total capital expenditure on water-supply in 1923 was Rs. 5,83,426. The total expenditure on municipal drainage and sewerage works was Rs. 5,32,644. The report of the Committee appointed to enquire into the water-supply of the west bank of the Hooghly was received. The Committee came to the conclusion that the only type of scheme suitable for the municipalities in the riparian area which had no public water-supply was a tube well supply of a limited quantity. Copies of the report were forwarded to the municipalities concerned.

Personal.—The Member in charge of the Local Self-Government Department desires to record his appreciation of Dr. Bentley's valuable work as Director of Public Health and Mr. G. B. Williams' efficient administration of the Engineering Branch of the Department. Dr. Bentley's enthusiasm and his unremitting study of the public health problems of Bengal have had a great influence on the local bodies of the Presidency, and their genuine concern and desire for the improvement of the public health must be largely attributed to his labours.

The scope of the Engineering Branch has been greatly restricted by the meagre resources of local bodies; it is often years before a municipality can complete its financial arrangements for a water-supply scheme, but there are nevertheless few municipalities which do not give such a scheme priority over all other capital expenditure and the number of towns possessing a pure supply increases each year. The Member in charge of the Department desires also to acknowledge the valuable work of Mr. K. P. Roy, the Publicity Officer, who, with most inadequate means, has done a great deal to instil into the public some knowledge of the elementary principles of public and private hygiene.

The thanks of Government are due also to the Sanitary Board, whose advice on questions of policy has often been of great value.

• Rai Bahadur Gopal Chandra Chatterjee, M.B., Honorary Secretary of the Central Co-operative Anti-malaria Society, the Bengal Health Association and the Bengal Social Service League have done splendid work in harnessing voluntary effort to the cause of public health. It is not easy to keep alive philanthropic movements of this kind, but these societies have done much to organise the large number of people who are anxious to assist in the great task of eradicating or abating disease in Bengal.

It is only when voluntary effort of this kind is fully utilised that any striking and permanent improvement of the public health will be attained.

By order of the Governor in Council,

S. W. GOODE,

Secretary to the Government of Bengal.

#### ANNUAL REPORTS ON THE WORKING OF THE SHIPPING OFFICES IN BENGAL FOR THE YEAR 1924-25.

#### NOTIFICATION.

No. 84Mna.—The 18th August 1925.—The following annual reports on the working of the Shipping Offices in Bengal for the year 1924-25 are published for general information.

## RESOLUTION ON THE DEVELOPMENT AND CONTROL OF SEAMEN'S WELFARE WORK IN CALCUTTA.

### GOVERNMENT OF BENGAL.

#### MARINE DEPARTMENT.

#### Marine.

CALCUTTA, THE 8TH SEPTEMBER 1925.

RESOLUTION-No. 3498 Marine.

The Government of Bengal have recently had under consideration proposals for the further development and control of seamen's welfare work in Calcutta, including a proposal that the present Sailors' Home in Strand Road should be abandoned and a new institution better suited to cope with the modern needs of seamen and officers be built in the neighbourhood of the new Docks now undergoing construction. The whole subject of seamen's welfare work in Calcutta has been carefully reviewed in consultation with the Government of India; and it has been decided, with the sanction of that Government, that the proposal to replace the present Sailors' Home by a new institution in the new Docks area should be approved, and that a permanent Committee should be set up whose functions will be (a) to bring into being and to manage this new institution, and (b) to assist the development of other forms of seamen's welfare work in Calcutta that already exist or may become desirable. The Governor in Council is accordingly pleased to appoint the following Committee under the title of the Committee for seamen's welfare:—

## REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1924-25.

### NOTIFICATION.

No. 9T.—S.R.—The 5th September 1925.—Extracts paragraphs 1, 2, 3, 4, 8 and 9 from the report of the Commissioner of Excise and Salt, Bengal, on the Administration of the Salt Department in the Presidency of Bengal during the year 1924-25 are published for general information.

### R. DOUGLAS,

Deputy Secretary to the Government of Bengul.

No. 2665E., dated Calcutta, the 27th-29th June 1925.

From-G. P. Hogg, Esq., M.A., I.C.S., Commissioner of Excise and Salt, Bengal,

To-The Secretary to the Government of Bengal, Finance Department.

I have the honour to submit the following report on the Administration of the Salt Department for the year 1924-25. The report deals with the inland preventive work, control of inland bonded warehouses and control of saltpetre refineries and sodn factories, and has been prepared in the manner approved in paragraph 2 of letter No. 74, dated the 6th January 1925, of the Government of India, Finance Department (Central Revenues).

- 2. Charge of the department. I was on leave from the 2nd April 1924 to the 16th November 1924 and Mr. J. C. Platts, Deputy Commissioner of Excise and Salt, was in charge of the department during that period. I held charge during the remainder of the year.
- 3. Manufacture of salt in Bengal.—No license was granted for the manufacture of salt during the year under review.
- 4. Prices of sait in Bengal generally.—The average wholesale prices per maund of sait inclusive of duty at all the district headquarters during the past three years are shown in Appendix A. There was a decrease of 13 annas and 10 pies as compared with the previous year's average.
- 8. Saltpetre refineries and soda factories.—There were two licensed saltpetre refineries at Kakurgachi, as compared with 3 refineries in the previous year. The quantity of refined saltpetre produced during the year was 1,059 maunds, as compared with 1,440 maunds in the previous year. The decrease in the production was due to the closure of one refinery. No quantity of purified salt or sitta (impure salt) was educed in the process of refinement during the year under report, and there was no sale of purified salt. A sum of Rs. 100 was realized as license-fee from the two saltpetre refineries. There was no factory for the manufacture of sulphate of soda.
- 9. Inland bonded warehouses.—There were 6 private bonded warehouses in this Presidency, viz., 1 at Naraingunge, 3 at Jhalakati and 2 at Chandpur. One warehouse at Jhalakati was closed during the course of the year. The warehouse at Naraingunge in the district of Dacca was inspected by the Collector of Dacca, the Superintendent of Excise and Salt, Dacca, and the Sub-Divisional Officer of Naraingunge. The warehouses at Jhalakati in the district of Bakarganj were inspected by the Superintendent of Excise and Salt of the district. The warehouses at Chandpur in the district of Tippera were inspected by the Sub-Divisional Officer of Chandpur and the Superintendent of Excise and Salt, Tippera.

### Notice under section 47 (2) of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta has applied to the Local Government for sanction to the Improvement Scheme No. XXV (Kapalitola Lane Widening-from Nalanda Square to Scheme No. VIID) which was originally notified in the issue of the Calcutta Gazette of 19th March 1925.

CALCUTTA, the 5th September 1925.

## Admusi report of the Boyal Botznie Garden and the Garden Calcutta and of the Lloyd Botanic Garden, Darjoeling, for 1924-25.

## ROYAL SOTARIC CARDEN.

1. General.—A period of drought during the first few months of the year under review added to the difficulties of gardening operations already made perplexing by the necessity of accommodating oneself to a reduced budget and exploring every avenue for the reduction of expenditions. The months of April and May were exceedingly hot and dry for a garden containing so many exotic species unaccustomed to extremes of climate. To prevent mortality in such circumstances is impossible. The best one can do is to replace as fast as inroads on the collections are made and to nurse casualties back to health. Additions to the garden therefore called for special attention during the year, and Mr. Mitra, officiating Curator in charge, throughout the period, when planting out could be done, deserves special mention for his praiseworthy efforts in bringing round sickly plants and in the replacement of those that had failed altogether to stand the adverse conditions. The early period of drought had, however, a compensatory effect in restricting the development of grass and undergrowth, and so rendering the lawns and other parts of the garden, where mowing or sickling is regularly carried on, comparatively easy of maintenance. The rains were prolonged into the month of November and water, therefore, was available in sufficient quantity to dispense with an early running of the pumping plant for supply to garden lakes.

Amongst operations of a routine nature the renovation and enlargement of collections under cover may be specially mentioned. The Orchid house which, so far as the beds are concerned, was reconstructed two years ago has gained much through the attention paid to it. The ground collections here have now had time to completely accommodate themselves to the new beds, while the hanging collection renewed by the accession of consignments of orchids from the Assam jungles have little to add to the attractiveness of this, the favourite resort tor Though closed to the public and therefore little known, the main shade house of the nursery is now second to none in the garden. Here the collections of foliage plants and in particular of palms in pots are housed and brought to a condition suitable for exhibit in the out-houses. With a view to gradually increasing the out collections so dependant on this nursery for variety and effectiveness efforts were made during the year to bring the stock collections to a state fit to meet any demands made on them. A rearrangement was effected allowing of easy determination of what the collections contained and the more valuable or rarer species were housed and locked off in a secondary enclosure within the main structure. Experience has demonstrated the utility of this elementary precaution, for it may not be generally known that the local mali, general garden worker or even casual visitor is not so ignorant of the relative values of the different plants he has opportunity to handle as he is sometimes supposed to be. Losses there have been and plants once in the collections have disappeared and reappeared on sale, but petty theft is an offence not confined to any garden. What is pleasant to report is the perceptible abatement in that form of crime which has as its object only a wilful and senseless spoliation of plants and garden property to satisfy a craving for destruction and to prevent the enjoyment of others.

In common with annuals in the district this class of plant appeared very late in bloom, the long cold season no doubt being responsible for A collection of rose grafts for the garden was acquired from North-West India at the beginning of the cold weather. Favoured by the length of this season they flourished exceedingly but showed signs of distress when the hot weather arrived. Although in many parts of Bengal it can be grown well, the rose is a plant somewhat exacting in the conditions it demands for success. One sees very few of the species in Calcutta itself although as near to it as Barrackpore roses can be grown to great beauty and in variety. The Howrah side and Sibpur grown to great beauty and in variety. The Howrah side and Sibpur along with it unfortunately takes after the parent city in this respect and is in general unsuited to their cultivation.

Besides the usual routine work directed to keep the garden in a fit state certain other works towards the maintenance of garden accessories have been carried out. No less than 20,280 sq. yds, of road, subject to the incessant traffic of modern rubber wheeled vehicles, have had to be repaired. Repairs comprised the whole of the Hamilton Avenue.

The State of Manager

the College gate front, the Wallich Avenue from College gate to the probationers quarters, parts of the Falconer and Roxburgh Avenues and the complete length of the Palmyra Avenue. In addition the Kyd monument and certain other garden structures were overhauled.

Reference has been made in recent reports to the state of the great Banyan tree. The decay that has set in, probably senile in the first place, has now become pronounced through the attacks of a virulent fungoid growth. It soon became evident that nothing would save the trentral column and that the only method of prolonging the life of the radial parts was to operate. At the time of writing the central portion has been completely removed and the decaying branches severed at points ahead of the disease. The intention is, as soon as the rains break, to transplant as large a stock as possible into the vacant space and when this gets established to graft it to the old plant. Owing to the great age and magnitude of the branches success will be doubtful but nothing short of this drastic treatment now offers any chance for the tree. Although conditions are bad at its centre, the Banyan shows no signs of this externally, and in respect of symmetry the number of aerial roots fixed in the ground and area covered must still remain the finest specimen of its kind in existence.

2. Plant and seed exchange.—Interchange of plants and seeds with other Botanical, Agricultural and Forestry Departments and with private individuals has been well maintained throughout the year. Some 17,654 plants were distributed, of which 9,100 were trees for road side and other planting, 3,851 were shrubs and 4,438 palms and surplus annuals. The balance was made up of climbers, bamboos, ferns and orchids. As is usual many of these went to Government institutions, District Boards, railways and municipalities.

In order that the plants collected by Mr. Kingdom Ward during his visit to Tibet and the Brahmaputra gorge might not have to suffer by any excessive delay in getting conditions for their growth, six large wardian cases for despatch to England were prepared in anticipation of his arrival. Into these went the wonderful collection of bulbs, rhododendrons and magnolia cuttings brought back. Besides a few plants brought back for the garden Mr. Kingdom Ward handed over a number so much the worst for the long journey they had made that they would never have travelled to England alive. They were immediately attended to, but it is too early yet to say whether the journey they have already had combined with the great change in their surroundings may not prove too much for them.

In the general receipt side is to be recorded a collection of some 1,482 plants, many of them orchids. Packets to the number 286 and 28 lbs. of seeds were distributed and 127 packets received.

28 lbs. of seeds were distributed and 127 packets received.

3. Herbarium and Library.—The continued vacancy in the post of second assistant for systematic work and the absence on sick leave of the officiating Curator of the Herbarium has resulted in much of the work in this department devolving on Mr. Narayanaswami. With one officer only to do the duties of three it was impossible to attempt anything beyond general routine work. The plants already incorporated were reasonably well maintained and a praiseworthy attempt on Mr. Narayanaswami's part made to incorporate the thousands of sheets lying outside their proper cabinets. The result attained is commensurate with the labour this has involved. The herbarium looks much the cleaner for the arrangement made and there is now room to work without fear of having one's material mixed with loose collections and sheets lying about. In the aggregate some 11,000 sheets were incorporated. These include collections from all over India and Burma as well as certain foreign representatives from Africa, America and China. The most noteworthy additions are Mr. Narayanaswami's own collections from the Rampa country, Mr. Fischer's Madras Presidency plants, the writer's and Mr. Ramaswami's South Indian collections and representative collections made by Forest officers and others in Burma.

Identifications of current consignments were made on behalf of the numerous correspondents who continue to take advantage of the facilities afforded by Sibpur for such works.

Distributions include a large collection of Indian and Malayan duplicates to help build up an herbarium in the Botanical Department of the University of Allahabad. Small cases of Eastern Himalayan material collected by the writer and garden material collected by Mr. Narayanaswami were sent for the use of Edinburgh and Aberdeen Universities in connection with the botanical training of Forestry students.

The library is now free of arrears of debt and a normal number of additions has been made to it,

- 4. Publications.—No purely garden publications appeared during the year, but the distribution of Part II of Vol. XII of the Annals of the garden, as well as the Appendix to Vol. XI was completed so far as the national affairs in certain countries would allow. The work left at his death by Signor Beccari is being brought together by Professor Martelli and a promise has been given that, so far as funds permit, the cost of publication of the plates necessary to illustrate the volume will be met. A list of Indian species of plant not appearing in Hookers Flora of British India—a compilation started as a library work and continued as a work of the Botanical Survey—is ready and about to go to Press.
- 5. Financial.—Out of a total budget allotment of Rs. 1,07,038 Rs. 1,06,461-15-2 were spent. There was a saving of Rs. 5,256-7-10 mainly under "Subordinate garden staff" and "Clerical establishment", but this is almost absorbed by an excess of Rs. 4,680-7 mainly due to increase in pay of the officiating Curator of the Herbarium and inclusion of leave allowence of the Curator of the Garden. The great inclusion of leave allowance of the Curator of the Garden. The grant of Rs. 29,468 for temporary establishment was spent in full as was also the allowance of Rs. 14,000 for contract contingencies.
- 6. Stan.—Lieutenant-Colonel A. T. Gage, C.I.E., I.M.S., was on leave throughout the year, during which time the writer officiated as Superintendent. Up till the 13th October 1924 Mr. P. M. Debbarman officiated as Curator of the Herbarium. From this date till the end of the year he was absent on leave through sickness. His place was taken by Mr. V. Narayanaswami who continued to act as Curator of the Herbarium in addition to his own duties till the end of the year. Mr. W. V. North was Curator of the Garden from the 1st April till the 23rd May and again from the 24th January till the end of the year. During the early part of his absence on leave Mr. S. N. Bose officiated as Curator; thereafter Mr. N. Mitra took charge. The post of Assistant Curator was held first by Mr. S. N. Basu and afterwards while this officer acted, by Mr. Merlin Jones. Mr. Safdar Khan acted as Overseer from the 1st October 1924 till the 19th January 1925. The Head Clerk, Babu S. K. Mitra was on leave from the 1st April till the 1st May 1924, Babu A. T. Banerji, seventh clerk, being selected to perform the duties of Head Clerk during this officer's leave. All officers and the clerical staff have given satisfaction in the performance of their duties. Staff.—Lieutenant-Colonel A. T. Gage, staff have given satisfaction in the performance of their duties.

### CALCUTTA CARDENS.

Apart from routine work in these gardens there devolved on the staff the duty of repairing the extensive damage done to the Eden Gardens, while it was temporarily occupied by the Calcutta Exhibition authorities. In the course of erection of structures for this exhibition numbers of plants were damaged and some had to be removed altogether. The ride was left without a blade of grass on it; the Canna garden, from which all collections had been removed to avoid destruction, presented a desolate appearance and the garden throughout was strewn with bricks, concrete foundations and the usual débris that such an event leaves in its wake. As other funds were not made available, it was inevitable that the budget allotment should first be directed towards repairs and, if during the first half of the year complaints as to the condition of the garden were freely made public in the Press, it was condition of the garden were freely made public in the Press, it was beyond the power of the staff to bring it to a presentable condition earlier and at the same time retain enough money in hand to meet inevitable expenditure in the last months of the year. With the help of a Ford Tractor kindly loaned by the Company supplying these the ride was brought back to condition and returfed, the Canna garden was replanted and rubbish having been removed, casualties in the permanent collections made good. Although there are still evidences of the exhibition in relies of broken masonry, dismantled seats and gaping breaches in a few hedges the garden is well back to its former condition and has now regained the popularity it previously had as a place of resort for the Calcutta public. the Calcutta public.

New accessions to the Eden Garden include a collection of hybrid

Dahlia bulbs received from Europe.

In the other Calcutta gardens the year's work was mostly of a routine character. As elsewhere, cold weather annuals were late but several beds in the Curzon Gardens eventually repaid the trouble taken over them and were much admired by the passing public. To Messrs. Mitra, Bass, Quasem Ali and Safdar Khan, the officers in charge, are due thanks for the manner in which they carried out repairs and brought the gardens back to condition.

Of the full budget allotment of Rs. 29,486, Rs. 28,876-6 were spent. There was an excess of Rs. 101-9 in the grant for garden staff, but this is more than set off by a saving of Rs. 716-2 on the pay of Assistant Curator. The net saving was Rs. 615-10.

## LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall for the year was 120.38 inches being slightly in defect although rain commenced early the 11th April and continued till late—the 23rd October. The fall in this interval was well distributed as is shown by the number of days, 45 only, in which no measureable amount was recorded. The cold season, the dullest and most severe recorded for many years, was responsible for a certain amount of damage to both excite and indigenous plants in the permanently planted-out collections, while certain plants in the local forests also felt its effects. Amongst exotics the following were the chief sufferers—Cestrum aurantiacum and other species, Jussiaea peruviana Fuchsia macrostemma and other species and Doryanthes Palmeri and of indigenous plants from levels lower than Darjeeling the following—Luculia gratissima, Cassia lævigata, Solanum verbascifolium, Saurauja fasciculata, Musa pepalensis and Curculigo recurvata. All these species are ordinatily quite hardy in Darjeeling.

As a consequence of the efforts made during the past two years to bring the garden paths and structures into good condition and the strict economy practised with regard to labour during the year, it has been found possible to carry out a few improvements during the past cold season. Certain decaying wooden railings have been replaced by iron fencing, the steepest of the paths,—difficult to maintain, if metalled—have been paved with stone blocks, revetment walls have been erected and an effort, more prolonged and determined than usual, has been made to rid the lawns and plants of moss. Some 78 species of plants new to the garden were planted out in the permanent collections during the year and a few examples which had become old, decrepit or damaged by storms were replaced.

In addition to garden work proper distribution of local seeds and plants has been carried out as in previous years.

In this Garden there was a saving of Rs. 98-7-7, mostly under rents, rates and taxes, out of a total budget allotment of Rs. 20,944.

The high standard of Mr. Cave's work in all directions has been so frequently referred to in these reports that it is, perhaps, unnecessary to comment on it further. Suffice it to say, therefore, that in the present year of his service this standard has been amply maintained.

C. C. CALDER,

Superintendent,

Royal Botanic Garden, Calcutta.

## DISTRICT REPORTS ON WEATHER AND CROPS.

### For the week ending on the 9th September 1925.

Summary.—The rainfall during the week continued light to moderate, the fall being heavy in parts of Dinajpur, Darjeeling, Dacca, Mymensingh and Tippera districts. Harvesting of autumn paddy is almost completed. Transplantation of winter paddy is nearing completion. Outling, steeping and washing of jute are in full swing. The condition and prospects of the standing crops are fairly good. The price of common rice for the province has risen by about 0.42 per cent. as compared with that of the previous week.

## DEPARTMENT OF AGRICULTURE, BENGAL.

## Final Forecast of the Jute Crop of Bengal, 1925.

(NOTE.—On an average of the five years ending 1923-24, the area under jute in Bengai, to which this forecast relates, represents some 85-3 per cent. of the total area under jute in British India.)

Season.—In the preliminary forecast, the weather was reviewed up to June; it being too wet in North and parts of East Bengal, but favourable in West Bengal. The rainfall in July was about the average, with the result that there was a gradual rise of rivers, to the benefit of retting operations generally. Deficiency of rainfall in August made retting difficult in certain highland tracts of Eastern Bengal, but the normal rise of rivers during the course of the month facilitated the operation. Good rainfall in the beginning of September again proved beneficial. In West Bengal the conditions were favourable throughout, but insufficient rain in August interfered with the harvesting operations in some tracts.

Condition of the Crop.—In West Bengal the crop is expected to be good, on the whole. Elsewhere the crop is satisfactory, except in Mymensingh and parts of Northern Bengal.

Acreage.—The area under jute is 2,552,936 acres, an increase of 162.833 acres or 6.8 per cent., as compared with last year. The area for Nadia has been increased from 60,240 to 72,335 acres; Rangpur from 260,648 to 270,000 acres; and Pabna from 126,100 to 136,100 acres, since the issue of the preliminary forecast. The area for Malda is returned at 26,414 acres, an increase of 11,330 acres over last year's figure. Several other minor alterations have also been made in some districts. These changes are due mostly to further scrutiny of the preliminary figures.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals, which remain as follows:—Dagca and Chittagong 3.7 each, Rajshahi 3.5, Presidency and Burdwan 3.2 bales per acre.

The total outturn of the crop is estimated at 6,983,400 bales of 400 lbs., as against 7.239,865 bales of last year, a decrease of 256,465 bales. This is due largely to the poor yield in Mymensingh (only 62.16 per cent. of normal over an area representing roughly one-fifth of the total), and in Northern Bengal, particularly Rangpur, consequent on water-logging from heavy rain in the early stages of the crop. In Mymensingh alone this means a decrease of over 7 lakhs on last year. This figure, which appears low, has been arrived at after a careful scrutiny.

G. P. HECTOR,

Director of Agriculture, Bengal (Offg.).

# DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1925.

(NOTE.—On an average of the five years ending 1923-24, the area under jute to which the Bihar and Oriesa (erecast relates, represents about 8-2 per cent. of the total area under jute in British India.)

Acreage.—The final district returns of the seven jute-growing districts of the province show an area under jute of 248,300 acres, as against the finally revised figure of 246,200 acres of last year. The increase in area is mainly in l'urnea and the Santal Parganas and is attributed to favourable weather conditions at the beginning of the growing season. Since the issue of the preliminary forecast the area under jute in Cuttack has been reduced by about 10,800 acres, the reason being attributed to over-estimate and also to heavy rain and floods in July. Last year's area in Purnea has since been revised.

Weather conditions.—In March light rain fell in the jute districts, except Muzaffarpur, the fall being below the normal everywhere, except Bhagalpur and the Santal Parganas, where it was above the normal. In April the fall was in excess of the normal everywhere and in May it was below the normal everywhere, except in Champaran and the Santal Parganas, where it was above the normal. In June the rainfall was below the normal in all jute districts, except Cuttack and Balasore, where it was above the normal. In July the rainfall was below the normal everywhere, except Cuttack, where it was above the normal. In August the rainfall was on the whole sufficient in the jute districts. In Purnea the drought in the months of May and June retarded the growth of the plant to some extent.

Outturn.—In the important jute districts of Purnea and Cuttack, the outturn of the crop has been estimated as 75 and 62 per cent. of normal, respectively. Champaran and the Santal Parganas each reports a normal crop, i.e., 100 per cent. Balasore, Bhagalpur and Muzaffarpur report 85, 81 and 75 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers, and taking three bales, as the normal outturn per acre, the total gross outturn of the crop for the province this year comes to 555,984 bales or, in round numbers, 556,000 bales, against 489,200 bales, the revised final estimate for last year.

The average import of raw jute into this province from Nepal during the last three years was equivalent to 59,744 bales. This figure, added to the figure for the province arrived at, gives a total for Bihar and Orissa of 615,728 bales or, in round numbers, 615,700 bales, against 548,027 bales or, in round numbers, 548,000 bales, the revised figure for last year.

## DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1925.

(NOTE.—On the average of the five years ending 1923-24, the area under jute in Amam represents 5-1 per cent. of the total area under jute in British India.)

Season.—The condition of weather during the first part of the season was very wet, interfering much with the cultivation of jute and retarding growth and causing damage to the crop to a considerable extent. Weeding was also interfered with.

Area.—The area, as reported by the Deputy Commissioners, is 125,600 acres, against the revised figure of 134,100 acres of last year and 118,900 acres of the preliminary forecast of this year. The areas reported in the preliminary forecast have been revised in four districts, two showing a decrease and two an increase.

Outturn.—The outturn is estimated to be 58 per cent. of the normal yield per acre, against 71 per cent. of last year. Taking 3.5 bales of jute fibre as the normal yield per acre, the total produce of the crop in this province this year comes to 252,200 bales, against the revised figure of 332,600 bales of the preceding year or a decrease of about 24 per cent

CALCUTTA, the 16th September 1925,

#### DEPARTMENT OF AGRICULTURE, BENGAL.

#### Monthly Weather and Orop Report of Bengal for August 1925.

- I. Character of the season.—The rainfull during the month was markedly in defect of the normal. The precipitation was, however, above the average in North Bengal districts excepting Rajahabi, Bogra, Pabna and Malda. The usual rainfall statement is appended.
- II. Progress of agricultural operations.—Owing to insufficient rain the transplanting of winter paddy seedlings was considerably retarded in the West Bengal districts and in parts of Mymensingh; elsewhere the operation was normally active and weeding was proceeded with. Harvesting of autumn paddy continued under favourable conditions. The cutting, steeping and retting of jute progressed favourably in East and North Bengal districts. In West Bengal and in parts of Mymensingh difficulty was experienced owing to insufficient water.
- III. State of standing crops.—The standing crops were generally doing well except on the highland tracts in Western Bengal, where the condition is not satisfactory for want of sufficient rain.
- IV. Prospects and probable outturn.—Insufficient rainfall which delayed the transplanting of winter paddy seedlings in West Bengal districts has also had an adverse influence on the growth and consequent outturn of the crop. The prospects of winter rice in the rest of the province as well as of sugarcane and other standing crops are fairly good.
- V. Damage to standing crops.—Slight damage by insect-pests was reported from some of the West Bengal districts.
- VI. **Conditions of agricultural stock.**—The condition of livestock was generally fair. Stray cases of cattle-disease were reported from several districts.
  - VII. Failure of pasturage and fedder.—There was no scarcity of fodder.
- VIII. Prices of food-grains.—During the second fortnight of the month the price of common rice of the cheapest quality rose in 6 districts, fell in 6 others, and remained stationary in the rest of the province.
- IX. Condition of agricultural population.—The condition of agricultural population was fairly good.

G. P. HECTOR,
Director of Agriculture, Bengal (offg.).

#### DISTRICT REPORTS ON WEATHER AND COORS

### For the week ending on the 18th September 1925.

Summary.—There was stormy weather in parts of North and East Bengal accompanied by general rainfall throughout the province. The recent rain has facilitated the growth of transplanted winter paddy and has improved its prospects generally. More rain is, however, needed in the Burdwan Division, especially for the highland tracts. The area under winter paddy is likely to be less than last year owing to want of timely rainfall. The average price of common rice for the province has risen by about 1.02 per cent. as compared with that of the previous week.
